CHLORINE DIOXIDE: CLEAN, GREEN, PEACE OF MIND

SAFE ON MATERIALS... DEADLY ON ORGANISMS

LIFE SCIENCES

FOOD SAFETY

PHARMACEUTICAL

HEALTHCARE

ClorDisys offers unparalleled service for all of your on-site and off-site decontamination service and equipment needs. Utilizing chlorine dioxide gas, the industry's most effective sterilant, ClorDiSys can eliminate all your microbiological contaminants, including bacteria, viruses, molds, spores, beta-lactams and even pinworms. Chlorine dioxide is safe on materials and leaves no post treatment residuals.

Be sure to check out ClorDiSys' free [Chlorine Dioxide Workshops](#), and our free [Webinar series](#) or come visit us at an upcoming [Tradeshow](#) to learn more about chlorine dioxide gas and all its potential benefits.
